Objectives
• Define standards of care.
• Conduct a medical history yielding critical risk factor information.
• Perform a head and neck examination.
• Discuss and employ periodontal care planning.
• Gain a current understanding of manual versus powered instrumentation treatment strategies including indicators for referral.
• Discuss periodontal staging and grading as well as billing for services rendered.
• Enhance assessment (dental and periodontal charting as well as head and neck examination); treatment planning, and delivery of care documentation.
• Identify and differentiate allied dental personnel and their qualifications.
• Identify and differentiate the ethical principles guiding the practice of dentistry, dental therapy, dental hygiene and dental assisting and analyze their effect in ethical dilemmas.
• Recognize ethical dilemmas that occur in dentistry, dental therapy, dental hygiene and dental assisting practice.
• Identify and describe the mechanism by which the practice of dentistry, dental therapy, dental hygiene, and dental assisting is regulated with the inclusion of delegation of duties to allied dental personnel in this state.
• Identify and explain the scope of practice of the dentist, dental therapist, dental hygienist and dental assistant as defined by the rules and regulations of this state and other states or provinces.
